Evaluating Credentials from Outside the U.S.

Daytona State College requires that all degree and certificate-seeking students submit final, official high school or GED transcripts and transcripts from all postsecondary institutions previously attended. This requirement ensures that Daytona State meets high academic standards by taking each student's full academic history into account.

Students who have transcripts from outside the United States are required to submit a final, official *evaluation* of their transcripts. Evaluations must be performed by a member of the National Association of Credential Evaluation Services (NACES). Information about this process is below.
