BUILDING A STRONGER COMMUNITY

“Today’s rapidly changing technology and discoveries in science, computer technology and health fields requires workers to continue state-of-the-art education. I am proud Daytona State College is available to advance teaching, learning and innovation.

The College has a major impact on this community both financially and through educational programs. Research shows that over 70% of the business or community leaders either attended Daytona State College or have had a family member attend.”

Joe Petrock
Executive Director Halifax Health Foundation/ Government Relations
1973 Daytona State College Graduate
2008 Bachelor’s Degree (Bachelor of Applied Science in Business Administration)
