

Leadership Innovation

Fundamental Leadership & Supervisory Skills

Hosted by Criminal Justice – Advanced & Specialized Training
Charles M. Curb School of Emergency Services

This highly interactive and engaging course, made for both sworn and civilian leaders, is for those who are seeking to elevate and grow their leadership potential.

During this course, you will be shown the skills, talents, and abilities needed to lead your team to high levels of growth and success! You will be provided with actionable concepts and ideas that can be immediately implemented to not only address your leadership concerns, but also greatly impact the performance of both you and your team.

Some of the topics we will cover include: Understanding your role, Decision-making strategies, When and how to delegate, Learning the most important thing you should be doing, What motivates you and your team, What is culture and how to shape it, Creating learning moments, How to deal with poor performance, Accountability and so much more!

If you are a new or a veteran supervisor, and serious about being a leader that makes a difference, this course is for you!
