

Hello. Thank you for your interest in the programs and services offered at the Center for Women and Men. This is a brief overview, but I hope you will come in and visit us for more information.

We have a childcare assistance program called CCAMPIS: Childcare Access means Parents in School. At CCAMPIS, we can help moms and dads pay for a portion of childcare costs, so that parents can focus on their studies.

We have a New Directions program, which can help pay for tuition, books, uniforms, and equipment for eligible students enrolled in vocational programs.

We have a Fresh Start program for those in the community who wish to come to Daytona State, but aren't sure where to begin. They can join our free four-week workshop and gain life skills, employability tools, computer and financial literacy, and confidence in themselves, as well as in the process for enrolling in a program here at the college.

We serve our homeless students with a food pantry, clothing closet, school supplies, free printing, access to health care, a staff or faculty mentor, and many community resources. And our center has a lending library for students to borrow a book for the semester. This is a limited supply, and first come first served, so please come early.

In addition, we have a clothing closet to help any Daytona State Student get career ready, free Falcon Fuel snacks for students on the go, and emergency bus passes if you have a transportation crisis. Plus, access to low or no cost healthcare for you and your family.

Thank you for taking the time to learn about our programs and services here at the Center for Women and Men. Our mission is to prepare, empower, and support a diverse student population in achieving their educational, professional, and personal goals. Changing lives, one life at a time.
