

Student Right-to-Know 2019 Report

Fall 2012 Cohort Graduation Rates

The Student Right-to-Know and Campus Security Act of 1990, as amended by the Higher Educational Technical Assistance Amendments of 1991, require that all institutions participating in Title IV student financial assistance programs disclose the graduation rate for the most recent cohort of full-time, first-time in college undergraduate students who have graduated within 150% of the normal timeframe¹ for their degree.

Once a student is in the cohort, they remain in the cohort, even if they switch to part-time or drop out. However, adjustments can be made to the initial cohort for exclusions, which include the death of a student, permanent disability, military deployment, or an official church mission.

Graduation and Completion Rates Four-Year Institutions

One of the measures of excellence in teaching and learning is the rate at which students complete their programs of study and/or transfer to four-year universities. Students enrolled at Daytona State College met the following criteria for this report:

- Indicated they were seeking a degree or certificate
- Enrolled in college for the first time in the Summer/Fall
- Enrolled for at least twelve semester hours

Please note: Florida Four-Year Colleges do not have a full-time, first-time, bachelor degree-seeking cohort. The Florida College System is a 2 + 2 System. The graduation/completion rate does not include qualified exclusions such as deceased students, permanently disabled students, students which left school to serve in military or students on an official church mission.
