

Correction of Graduate Student Status (2021-2022)

Student's Name: _____

Student's ID: _____

We have received your processed 2021-2022 Free Application for Federal Student Aid (FAFSA). You have indicated that you will be working on a master's or doctoral program (such as an MA, MBA, MS, MD, JD, Ph.D, Ed.D, etc.).

Daytona State College does not offer masters or doctoral programs; you will need to correct your answer to this question on the 2021-2022 FAFSA to "No". If your status for financial aid as an independent student is based **solely** on your answer to this question, you will also need to include parent information (demographic, income, asset), as well as the parent signature, on your FAFSA.

Please return this form to our office as soon as you have corrected your 2021-2022 FAFSA so that we may continue the processing of your financial aid.

- I have corrected my FAFSA to indicate that I will not be working on a master's or doctoral program. **Attached** is a copy of my corrected Student Aid Report/FAFSA.
- I have also included parent information as well as the parent signature if my status as an independent student was based solely on working on a master's or doctoral program. **Attached** is a copy of my corrected Student Aid Report/FAFSA.
